

## "Outside The Wall"

Padua's largest exhibition devoted to "Pink Floyd The Wall"

In July Padua revived the myth of the British rock band hosting a concert by Roger Waters and the monographic exhibition organized by Floydseum. From 13 to 28 July Padua enters the myth, making music and theater successes of Pink Floyd thanks to great appointments: "The Wall" concert Friday 26 big comeback with Roger Waters, and "Outside The Wall", incredible and exciting exhibition organized by **Floydseum**, a unique opportunity to admire objects and memorabilia from around the world!

The Cultural Association Floydseum, fresh from the great success of the Pink Floyd Day 2 held in Brescia on 27 April, during which was officially presented in 3D Virtual Museum dedicated to the world of collecting Pink Floyd, engages in a new initiative that promises to be another success: the organization of the largest exhibition dedicated to "Pink Floyd The Wall" ever realized until now. In conjunction with the concert "The Wall Live" that Roger Waters will take to the stage Euganeo July 26, the Hall of the Cultural Center Agora Altinate/San Gaetano in Padova will host from 13 to 28 July the first exhibition of some of the most valuable pieces from the private collections of fans around the world related to the discography, film and live shows of Pink Floyd rock opera. Discs, posters, cards, t-shirts, prints and frames, tour program, magazines and newspapers, photos antiques and memorabilia of great rarity, the visitor will revive the glories of the ages of the album of the bricks.

Great expectation is then directed to meetings with people linked to "The Wall" from **David Appleby**, official photographer present in the backstage of the shooting of the Alan Parker film "Pink Floyd The Wall" who will speak on July 13 for the opening of the Exhibition, **Glenn Povey**, well-known author of the most sensational books ever written on Pink Floyd, including "Echoes" and "Technicolor Dream", and **Gio Alajmo**, renowned Italian journalist and music critic. For the first time in Italy, also, will be exceptionally exposed 47 original photos of Appleby and 20 rare original prints made available by **Gerald Scarfe**, the caricaturist world-renowned author of the characters and animations that have made famous the film and live performance of "The wall". Mr Scarfe, with his creative genius, has made the poster of "Outside the Wall", representing some of the most famous characters created for the animation of "The Wall": wife, teacher, mother and pink that, in honor of the exhibition, "emerge" from the wall. The same Scarfe has been invited to the exhibition on the morning of July 26. Conferences and meetings with experts of the group, concerts (**Wit Matrix** cover band) and demonstration of the Virtual Museum in 3D, the flagship of the Association Floydseum that allows the visitor to navigate to a spectacular world, are scheduled during the opening of "Outside The Wall" for all fans!

In the exhibition space will also find place the famous neon sculpture (3 meter high!!) of the hammers performed by Maestro **Marco Lodola**, one of the greatest exponents of the Italian modern art.

### The sections of the exhibition:

- The cultural association FLOYDSEUM
- The art and the image of Gerald Scarfe
- "The Wall" in the discography
- Pink Floyd "The Wall" live tour 1980/1981
- The film "Pink Floyd The Wall" with photos of the backstage by David Appleby
- Roger Waters "The Wall" live 1990-2013

**Plus:** Multimedia room, the 3D virtual museum of Pink Floyd's collectibles.
